You are being asked to take part in a research study. The information in this form will help you decide if you want to be in the study. Please ask the researcher(s) if there is anything that is not clear or if you need more information.

Description of Project
This study is being conducted to analyze student success characteristics in college students such as GPA and number of classes failed. Student success will be compared with academic and non-academic factors such as your high school experiences, sense of belonging, and access to resources in order to better understand factors related to student success.

Explanation of Procedures
If you agree to participate in this study:
You will complete an anonymous online survey that will take approximately 30 – 45 minutes. It will include questions about your student success metrics, demographic information, non-academic factors, high-school experience, and access to reources.

Participation is voluntary and anonymous. You can refuse to take part or stop at any time without penalty. Your grade, GPA and status will not be affected by taking this survey or the research afterwards.

Risks or Discomforts
There are no known risks or anticipated discomforts in this study.

Benefits
Participating in this study will provide valuable research data to a field that aims to better the college experience and improve student success rates.

Compensation:
This survey also qualifies towards 1 hour of PREX credit.

Confidentiality
We will take steps to protect your privacy, but there is a small risk that your information could be accidentally disclosed to people not connected to the research. To reduce this risk we will *not ask for personal identifiers such as name, student ID, social security number, or IP address, etc.*
